Antonios Koukouves

Berlin, Kaiserdamm 116, Germany 14057

(+30)6955852635 | antonis.kkvs@gmail.com

Professional with expertise in programming, cybersecurity, and cloud technologies. I've successfully applied Siemens technologies to Fujitsu's cloud heat pumps, boosting sales and after-sales services. I've also provided remote control solutions for specialized air conditioning systems in pharmaceutical warehouses, the Tositsa Foundation, and the Acropolis Museum. Currently holding a Cybersecurity certification from the University of Patras and am actively pursuing further certifications in cloud and DevOps technologies.

- Linux-Apache-MySQL-PHP Stack

- Critical Thinking

- Fast-learner

- Coding

- Problem-Solving

- Teamwork and Collaboration

- Bug tracking

Languages

Greek

English   German

Hobbies

My hobbies include studying, coding, crafting ethical hacking tools, and working on Raspberry Pi projects. I'm passionate about technology and machine learning, running my own AI models locally on my home-server based on psychology, penetration testing, and coding using Ollama. I also read books and practicing on different technology fields using Udemy and other internet sources.

Volunteering

Served in the Greek Special Forces as a Commando - Paratrooper
